
*** NOTE REGARDING NEW WINSIG CARD READER KITS ***

The current WINSIG card reader kits require an ISA slot on the motherboard. ISA slots are fast becoming obsolete so if you are ordering a new computer for someone who needs ESIG capabilities, you will also need to purchase a new PCI card reader kit. These kits include the Argus board, card reader and cable. These can be ordered as follows:

Jones Automation, Inc.
POC is Laura Darnell at 256-864-0068
Price is \$425 plus S/H

GradKell Systems
The POC is Wayne at 256-722-8585 ext. 37
Price is \$475 plus S/H

05 Feb 2000

DESKTOP MICROCOMPUTER SPECIFICATIONS

1. Requirements define a stand alone microcomputer configuration. The selected Information Technology (IT) equipment will conform to all IT industry standards and will specifically and minimally include:

a. A true Intel Pentium 4 processor, 1300 MHZ or higher clock speed (or faster) and real-time clock and battery backup. Minimum front side bus speed of 133 MHZ. System to be fully Year2000 compliant to ensure Year2000 compatibility.

b. 256 MB of 100 MHz SDRAM expandable to 1 GB, using 128MB DIMMS, flash bios. 512KB of L2 pipeline burst cache RAM.

c. 17" SVGA non-interlaced color monitor (16.0" viewable area) with 1600 X 1200 @ 66 Hz pixel resolution and .26 MM or less dot pitch.

d. 4X, AGP video card (128 bit processor) with 32 MB of memory.

e. Minimum of one 20 GB, 7200 RPM Ultra ATA hard drive with Ultra ATA100 controller.

f. EIDE integrated hard drive controller with the capability to support two hard drives and two floppy drives.

g. One 1.44 MB 3.5" floppy drive and one internal 16X DVD ROM drive.

h. Full multimedia system to include PCI Soundblaster 128 compatible sound card, shielded speakers, and subwoofer.

i. Two USB ports, one parallel and two serial port interfaces. Serial ports to have 16550 UART support and be configurable to use COM1 through COM8. Parallel port to have ECP/EPP support. Two PS 2 Mouse port.

j. PCI local bus motherboard with expansion slots to include:

(5) Five PCI slots.

(1) One AGP slot.

k. 104-key keyboard.

l. PCI 10/100 twisted pair Ethernet network card, SMC or 3COM.

m. Ability to operate using a 120 VAC, 60 Hz power source and a 200 watts power supply.

DESKTOP MICROCOMPUTER SPECIFICATIONS (cont.)

n. Must meet the Environmental Protection Agency (EPA) "Energy Star" requirements for energy efficiency.

o. Software provided will be MS Windows 2000 Professional and all drivers for third-party hardware. Diskettes (or CD-ROM if system is ordered with CD-ROM) for all to be included.

p. Hi-resolution Microsoft PS/2 Intellimouse and mouse pad.

q. Mini tower cabinet with 5 half-height installed storage bays, 3 of which being easily accessible via removable covers.

r. PCI, PCMCIA Card Reader, supporting a minimum of two (2) PCMCIA cards of the Type II height in a stacked configuration.

s. 100-percent compatibility and operational functionality with latest versions of LOTUS 123, VistaCOM, MS Office Professional, WordPerfect, FoxPro, Open Plan, Visual Basic, and ORACLE software.

t. 100-percent compatibility with MS 3.x, 95, 98, & NT, Novell Client 32 LAN software and hardware and with 3 COM or SMC ULTRA series Ethernet network cards.

u. Operational manuals and complete system documentation, including that for all third party hardware and software.

v. Vendor will provide **three-year, on-site** product warranty maintenance consisting of vendor or company designated by vendor providing on-site repair of ADPE and/or on-site replacement of defective parts.

(1) All coordination required to perform warranty work will be the responsibility of the vendor supplying the equipment to the government.

(2) Warranty work will be provided within 48 hours of notification to the vendor.

(3) During the warranty period, any part removed from premises for repair will be replaced by a like part until repair work is complete.

(4) Because vendors' on-site warranty service may vary, bidder must certify in writing that on-site warranty maintenance, as itemized above, is provided for this bid and location along with how this service will be provided and by whom.

DESKTOP MICROCOMPUTER SPECIFICATIONS (cont.)

w. Availability of on site contract maintenance service beyond the scope of warranty period.

x. An unconditional 30-day money-back guarantee.
y. Toll-free technical support.

z. Year 2000 Compliance Warranty.

2. Bidder will provide WRITTEN, ITEMIZED quotation which will include the vendors specification sheets, detailed warranty information and an itemized listing of features specific to this quote.

a. If bidder meets all clauses of the above specifications, written certification is required stating this.

b. In the event that bidder cannot provide quotation per the exact specifications, bidder can provide closest alternate, but shall itemize areas that quotation and specifications are different.

3. Microcomputer hardware and software shall be completely installed and configured per the above specification, and shall be tested at the factory, prior to shipment, for a minimum of 48 hours "burn-in" time..
